

# PUROLINEAR 360™

23QSKL233R120PHA

A system of linear tubes, set within the geometry of surface-mounted cylinder brackets, rotate individually to direct the LED illumination in 360 degrees along their axis. Arranged in a linear pattern or along a single path, the possibilities for compositions are endless and unlimited in scalability. Set on a wall, in line behind a bed, the rotatable luminaires provide the variability of direct or indirect illumination.
